

## Selina Jones

### Staff Person of the Month August 2025

In her short time as the Multimedia Communications Specialist, Selina Jones has taken her multiskilled specialties to help nearly every department improve both internal and external communications.

She adds a flair of creativity to flyers, videos, PowerPoint slides, social media posts, even her office space! She is quite comfortable creating or revamping visual needs but also enjoys teaching and empowering staff. From making printed guides to making office visits or leading orientation sessions, Selina shows staff the basics of our email software, Microsoft applications, or graphic design.

Her commitment is to our individuals, coworkers, and even the community around her. This summer, for the second year in a row, she has led the Lucas DD Trash Pandas as part of the Toledo Litter League. The contest is run by Keep Toledo/Lucas County Beautiful and is comprised of various organizations competing to see who can pick up the most litter by the end of the summer. To no one's surprise the Lucas DD Trash Pandas, a motley crew comprised of Board staff and families, are atop their division.

For most communications efforts, the question is always what do our individuals and families want to see? How do they want to hear about something? What is easiest for them? Being a communications professional with a family member served by the Board allows Selina a rare combination of being both creator and consumer of what the Board is promoting. This is advantageous on multiple levels for Lucas DD.

Whether it's coworkers or community members, from her camera to her graphic design to volunteering her time on various committees and in community events, Selina's tireless efforts are for the betterment of those around her.

Thank you, Selina, for your hard work and commitment to communication and creativity at Lucas DD. The Board is pleased to recognize you with the August 2025 Staff Person of the Month Award.
