

Lisa Harris

Retirement June 2026

As an Intake Service & Support Specialist, right up until her retirement earlier this summer, Lisa Harris demonstrated a willingness to take on difficult cases with integrity.

Lisa had tremendous experience about all the moving parts and quirky situations associated with Intake. She had a wealth of knowledge and was a wonderful asset to the Intake Department. Lisa was always very approachable and always willing to help out when things needed to be completed. She maintained a professional demeanor while also having a sense of humor, especially when times get tough or when everyone needed a good laugh.

As a co-worker, Lisa showed up. She was not front and center because she preferred to stay in the background. Lisa put in the time to get things done no matter what was happening. She was patient with others who always asked her questions, always willing to help out.

Congratulations, Lisa, on your retirement! Thank you for your remarkable service and your lasting contributions to the Lucas County Board of Developmental Disabilities.
