Grant Evaluation & Application Scoring

Grants will be evaluated in a fair and equitable manner. Applicant submissions will be reviewed against the intent of the grant, which is to either expand and/or enhance Adult Day and/or Employment services, promote community integration and community employment, and/or helps people achieve their goals related to Adult Day/Employment services & supports.

Scoring will be determined by completeness, eligibility requirements, alignment with intent of grant, feasibility of funds requested and desired outcome. A review committee will complete this process and determine the total score of the application. This will in turn be utilized to select awardees based on highest scoring of the application criteria. Administrator reserves the right to reject any, part of, or all proposals and waive any informalities in the proposal submission process.

Once the highest scoring application(s) have been selected, the committee will convene to vote on awardees based on total number of grants to be distributed during that phase and overall thoroughness of the application. Awardee(s) will then be contacted via email of their approval. Checks will then be mailed to the address listed on the application.

Applicants receiving the grant will be asked to provide the following:

- Receipts for purchases.
- Accounting of how the funds were spent, including a final budget breakdown of how your agency met the objectives of the grant.
- An outcome/success story because of receiving the grant. Those awarded the grant will be asked to sign a form giving LCBDD and 19 Services permission to publish their story/outcome.
